COMPACT TRACK LOADERS

TR270 | TR320 | TV380

Get more done

Climb inside a new Case compact track loader (CTL) and you'll feel the difference. Engineered from the ground up, this new line-up of equipment delivers more power. And that's just the start.

Our new CTLs deliver exceptional bucket breakout force (up to 3895 kg) and hinge-pin height. All three models deliver superior horsepower, giving you the muscle to get the job done faster.

Plus, they'll run all day long, thanks to improved fuel efficiency and new 76- to 96.5-lt. fuel tanks. One demonstration will prove it's time to trade up.

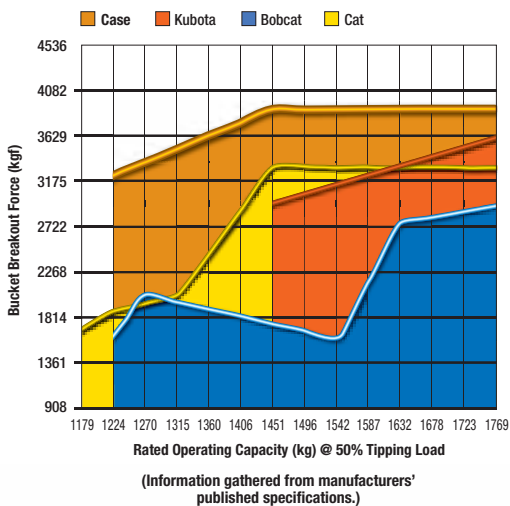

Comfort for the long haul

There's no comparison. Our engineers designed a cab that delivers more room, visibility, comfort and control.

Not only are they as much as 25 percent larger, but they also feature dozens of upgrades, such as optional heated air-suspension seats, air conditioning, a removable front door and side windows.

Our revolutionary ultra-narrow wire side-screen design and larger glass windows give you more visibility. With the Case-exclusive side lighting, you'll get more done – day or night.

Your operators will be comfortable in the industry's widest cab.

Compare us to the competition. You'll feel the superior breakout force.

Dozer-style undercarriage

Our dozer-style undercarriage is engineered to hold fast on steep slopes and take command of muddy or sandy terrain. The undercarriage has a rigid track frame with fewer moving parts, so it is more durable and easier to maintain than suspension track systems.

The technology on our rollers and idlers reduces maintenance costs and increases undercarriage life. Plus, our new, narrow chassis width makes it easy to load and unload on trailers.

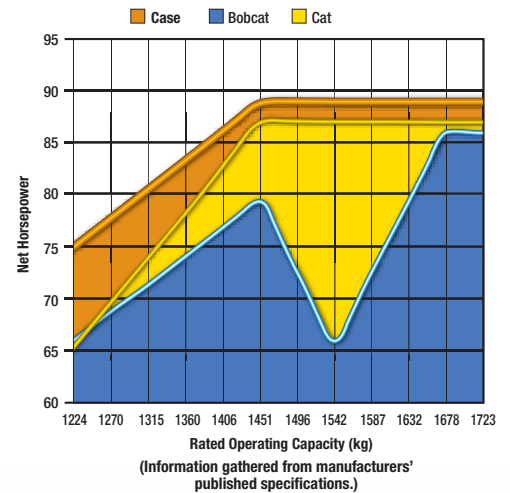

Designed to take on the toughest challenges, these new CTLs are engineered to boost your productivity and profits.

Muscle to spare

Case compact track loaders have the muscle to get the job done – with rated operating capacities up to 1.905 kg.* Our radial-lift TR270 and TR320 models are engineered for digging, prying and pushing, while the vertical-lift TV380 is for load-and-carry jobs. Plus, we deliver superior hinge pin height – which positions the bucket higher to load trucks faster and easier.

* With counterweights

You get more horsepower with Case.

SPECIFICATIONS	TR270	TR320	TV380
Engine	Case 432T/M3	Case 432T/M3	Case 432T/M3
Gross hp (kW) @ 2500 rpm	74 hp (55 kW)	90 hp (67 kW)	90 hp (67 kW)
Net hp (kW) @ 2500 rpm	70 hp (52 kW)	84 hp (63 kW)	84 hp (63 kW)

Superior serviceability

Ask your technicians. Case has a reputation for easy-to-maintain and service equipment. The new Case CTLs are no exception, with features such as remote-mounted filters, ground-line access for daily maintenance checks and grouped service checkpoints.
